Jive for Dental Offices

Patient Experience

See how effectively your team answers and handles inbound calls.

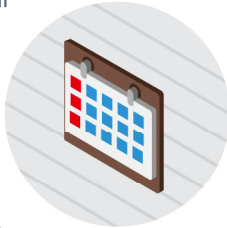

Management System Integration

Know who is calling and access important information like outstanding balances, appointment times, etc. with screen pop capabilities.

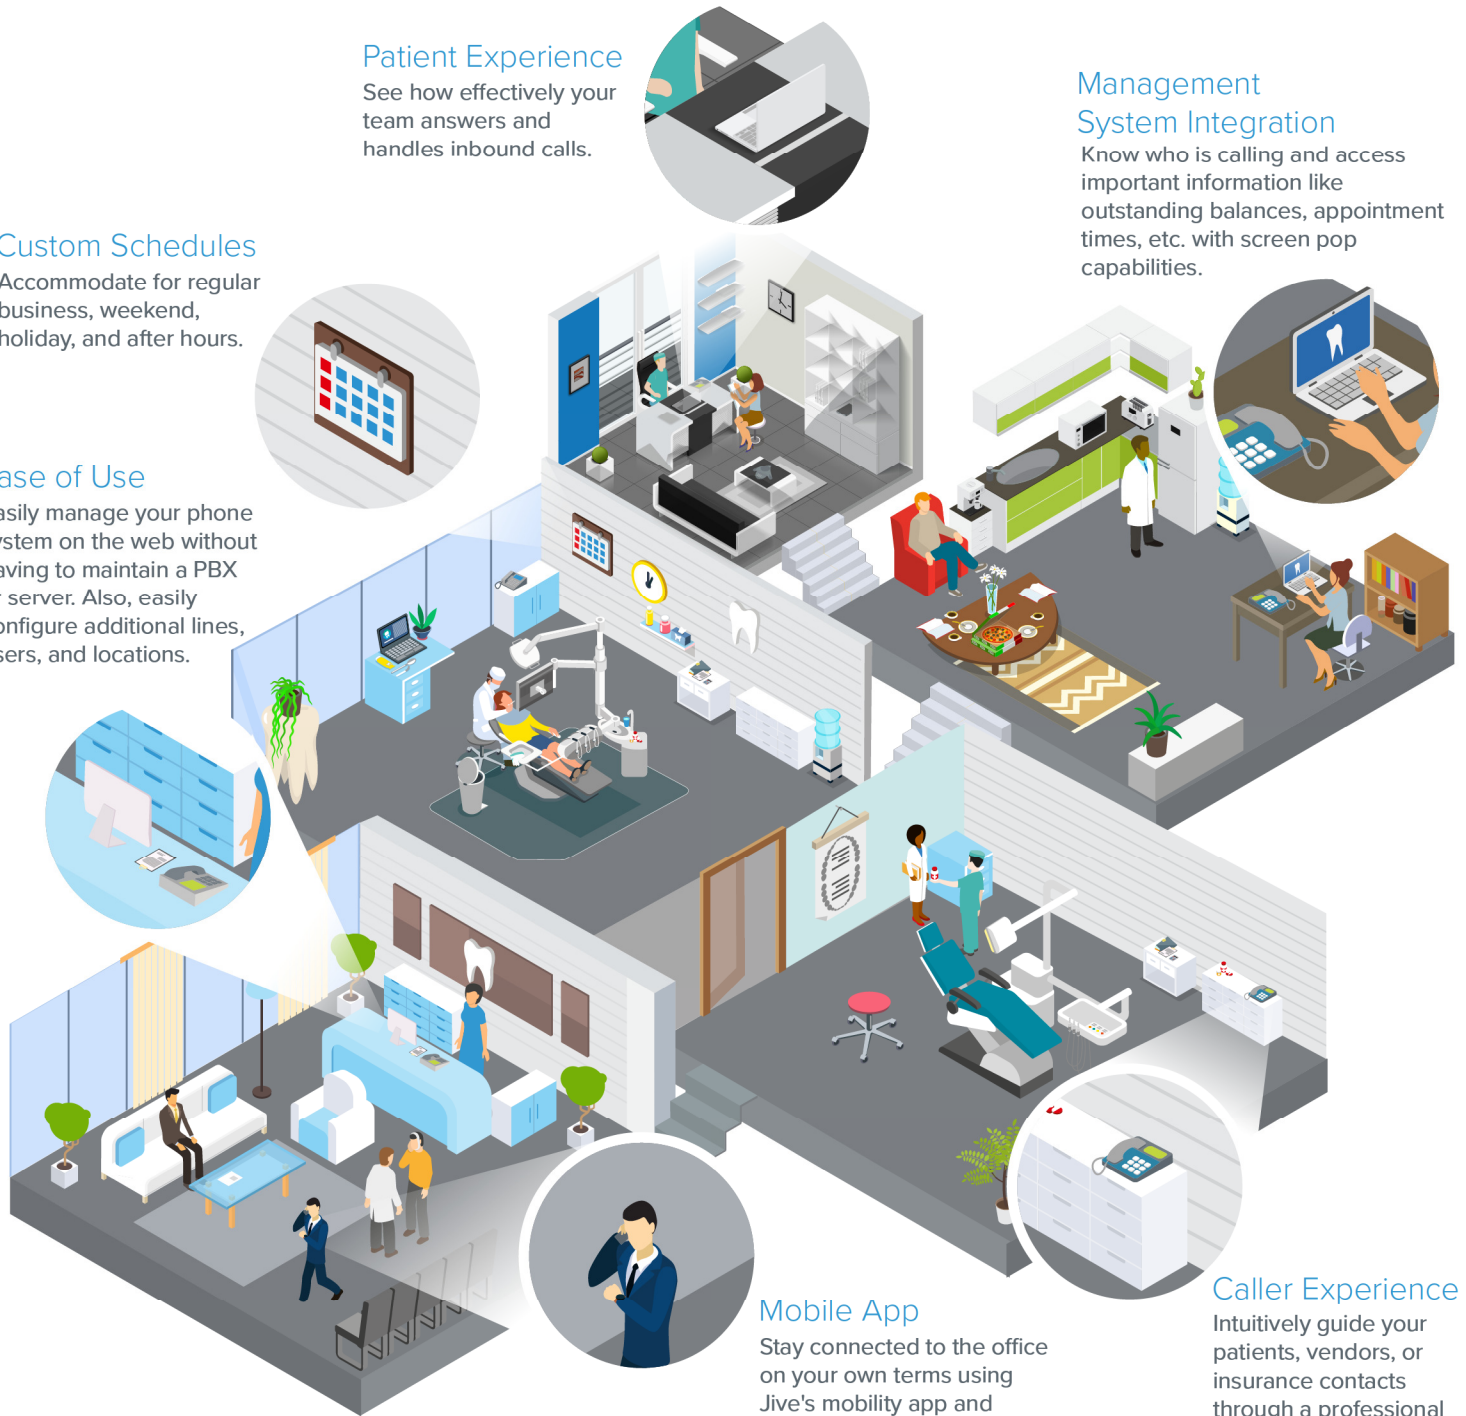

Custom Schedules

Accommodate for regular business, weekend, holiday, and after hours.

Ease of Use

Easily manage your phone system on the web without having to maintain a PBX or server. Also, easily configure additional lines, users, and locations.

Mobile App

Stay connected to the office on your own terms using Jive's mobility app and Find Me/Follow Me feature.

Caller Experience

Intuitively guide your patients, vendors, or insurance contacts through a professional list of options.

Win and retain patients with Jive's business phone system.

Your phone system is the nerve center of your practice, your lifeline to your patients. With Jive, you can quickly and easily customize your system to suit your practice's needs. Grow unimpeded by technical problems and hardware costs, and serve up a sense of availability and enterprise-grade professionalism to your patients.
